## Year 9 Vocational Explorers

Hosted at Federation TAFE's SMB Campus, Lydiard Street, Ballarat Central

### What Are Vocational Explorers?

Vocational Explorers are one-day vocational learning experiences designed for Year 9 students. These immersive programs introduce students to one or more job types or industries - helping them explore career pathways and understand the world of work.

Vocational Explorers support students in discovering future career options and preparing for vocational education and training.

### Program Structure

Each Vocational Explorer is delivered as a single-day program with five hours of instruction. Students gain practical experience in their chosen trade.

### Why Participate?

Vocational Explorers help students make informed decisions about their future by exploring vocational pathways before selecting subjects for Year 11 and 12. It's a valuable opportunity to try out different careers and discover what aligns with their interests and strengths.

### Focus Areas

Programs are offered in industries with identified skills shortages in Victoria, ensuring students gain exposure to areas with strong employment prospects.
