Year 9 Vocational Explorers

Hosted at Federation TAFE's Horsham Campus - Baillie Street, Horsham

What Are Vocational Explorers?

Vocational Explorers are one-day vocational learning experiences designed for Year 9 students. These immersive programs introduce students to one or more job types or industries - helping them explore career pathways and understand the world of work.

Vocational Explorers support students in discovering future career options and preparing for vocational education and training.

Program Structure

Each Vocational Explorer is delivered as a single-day program with five hours of instruction. Students gain practical experience in their chosen trade.

Why Participate?

Vocational Explorers help students make informed decisions about their future by exploring vocational pathways before selecting subjects for Year 11 and 12. It's a valuable opportunity to try out different careers and discover what aligns with their interests and strengths.

Focus Areas

Programs are offered in industries with identified skills shortages in Victoria, ensuring students gain exposure to areas with strong employment prospects.
