Year 10 VET Tasters

Hosted at Federation TAFE's Horsham Campus - Baillie Street, Horsham

What are VET Tasters?

VET Tasters are multi-week vocational learning experiences designed for Year 10 students. These programs immerse students in the world of work and introduce them to specific VET certificates and career pathways.

VET Tasters help students explore future career options and prepare for vocational education and training.

Program Structure

Each VET Taster is delivered over five weeks, with one 6-hour session per week. Students engage in practical activities specific to their chosen trade.

Why Participate?

VET Tasters support students in making informed decisions about their future by exploring vocational pathways before selecting subjects for Year 11 and 12. It's a valuable opportunity to try out different careers and discover what aligns with their interests and strengths.

Focus Areas

Programs are offered in industries with identified skills shortages in Victoria, providing students with exposure to high-demand career opportunities.
