

Student Representative from the Institute of Innovation, Science and Sustainability

Elizabeth Dyer | Bachelor of Science | Mt Helen

Hi, I'm Liz!

I am passionate about science, serving the university community, and advocating for positive change that benefits students across Federation University.

I am a Bachelor of Science student at Mount Helen campus. I currently serve as President of the Federation University Muslim Students Association (FUMSA). In this role, I work to build community, create opportunities for connection, and support an inclusive environment for Muslim students and the wider university community.

I am also a member of the Golden Key International Honour Society and volunteer with the RISE Crew, helping students connect with university life and access the services available to support them. Beyond the university, I am an active community volunteer in Ballarat.

Through these experiences I have developed strong leadership, communication, and advocacy skills. Senate. Please vote for me! I have wanted to join the Student Senate since 2024!

I am super approachable, friendly and driven to help others by my personable nature. If selected for the Student Senate, I will represent IISS students, raise constructive feedback with university leadership, and support initiatives that improve the student experience across campuses.

I care deeply about Federation University and would be honoured to serve the student community through the Student Senate. Please vote for me! I have wanted to join the Student Senate since 2024!
